NOTICE OF PROPOSED RULE MAKING

Adopted: November 25, 1998;

Released: December 4, 1998

Comment Date: January 25, 1999

Reply Comment Date: February 9, 1999

By the Chief, Allocations Branch:

1. Before the Commission for consideration is a multiple docket Notice of Proposed Rule Making setting forth separate proposals to amend the FM Table of Allotments, Section 73.202(b) of the Rules. Each petitioner has stated that it will apply for its requested channel, if allotted. We believe that each proposal warrants consideration because it complies with our technical requirements and would serve the public interest.

2. This is the first multiple docket Notice of Proposed Rule Making issued in response to a Commission Public Notice released October 2, 1998 (DA 98-1987). We are combining separate FM allotment proposals into a single Notice of Proposed Rule Making. Each proposal has its own docket and rule making number and the Commission's Reference Center will maintain a separate file for each docket. As discussed in the Public Notice, this procedure will conserve Commission resources and expedite the processing of FM allotment petitions for rule making by avoiding duplicative actions. We request comments and/or counterproposals to the following proposals:

Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed allotment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is allotted and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

(b) With respect to petitions for rule making which conflict with the proposals in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to allot a different channel than was requested for any of the communities involved.

4. Comments and Reply Comments; Service. Pursuant to applicable procedures set out in Sections 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the Notice of Proposed Rule Making to which this Appendix is attached.
